Topics we will be covering today

- Overview of SciENcv and accessing the system
- Working with forms in SciENcv (new interfaces!)
- How ORCID can help you to fill out forms faster
- Document certification (don't worry — it's easy!)
- How a delegate can assist in the process

Biographical Sketch

The Biographical Sketch is used to assess how well qualified the individual, team, or organization is to conduct the proposed activities. A Biographical Sketch (limited to three pages) must be provided separately for each individual designated as senior personnel.

Senior personnel include the individuals designated by the proposer/awardee organization and approved by NSF who contribute in a substantive, meaningful way to the scientific development or execution of a research and development project proposed to be carried out with a research and development award.

Inclusion of additional information beyond that specified below may result in the proposal being returned without review. Do not submit any personal information in the Biographical Sketch. This includes items such as: home address; home telephone, fax, or cell phone numbers; driver's license number; marital status; personal hobbies; and the like. Such personal information is not appropriate for the Biographical Sketch and is not relevant to the merits of the proposal. NSF is not responsible or in any way liable for the release of such material.

How can an ORCID account help me?

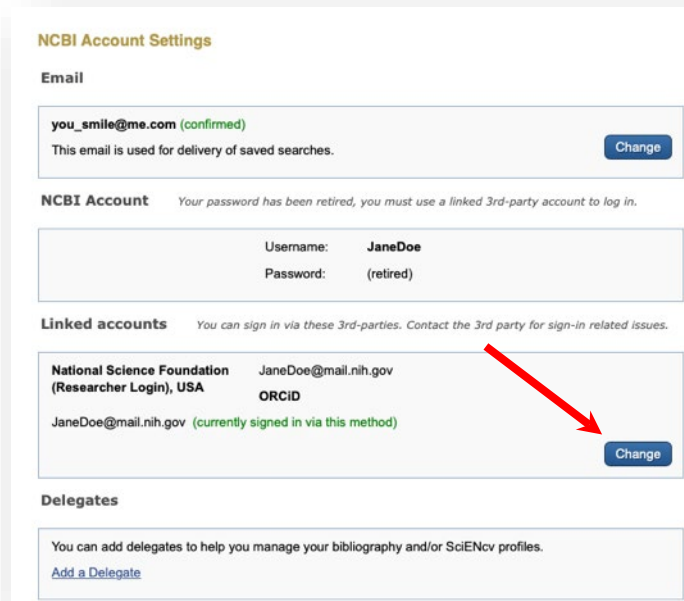

- It can be used as a SciENcv authentication route
- It provides you with a persistent identifier
- Data from ORCID can quickly fill out forms in SciENcv
- You can use your ORCID citations in SciENcv

How do I add ORCID login to my existing NCBI account?

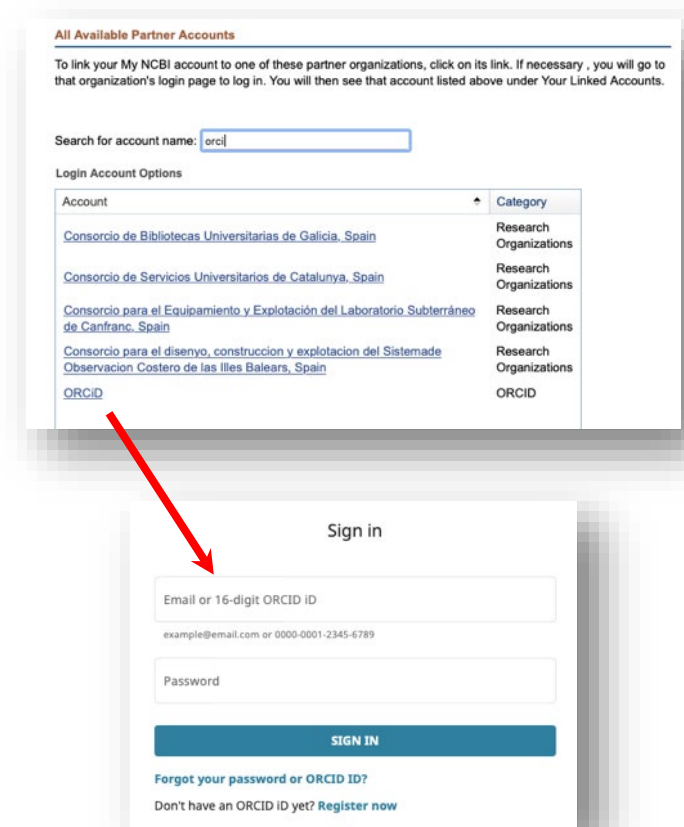

1. Once you are signed in, click on your username and choose "Account Settings"

2. Linked accounts; click on Change button

3. Search for ORCID and sign in

NSF Current and Pending (Other) Support [DOWNLOAD PDF](#)

Current and Pending (Other) Support information is used to assess the capacity of the individual to carry out the research as proposed and helps assess any potential scientific and budgetary overlap/duplication, as well as overcommitment with the project being proposed.

Current and Pending (Other) Support must be provided separately for each individual designated as senior personnel. Senior personnel include the individuals designated by the proposer/awardee organization and approved by NSF who contribute in a substantive, meaningful way to the scientific development or execution of a research and development project proposed to be carried out with an NSF award. Senior personnel must prepare, save, certify, and submit these documents as part of their proposal via [Research.gov](#) or [Grants.gov](#).

Senior personnel are required to disclose contracts associated with participation in programs sponsored by foreign governments, instrumentalities, or entities, including foreign government-sponsored talent recruitment programs. Further, if an individual receives direct or indirect support that is funded by a foreign government-sponsored talent recruitment program, even where the support is provided through an intermediary and does not require membership in the foreign government-sponsored talent recruitment program, that support must be disclosed. Senior personnel must also report other foreign government sponsored or affiliated activity. Note that non-disclosure clauses associated with these contracts are not acceptable exemptions from this disclosure requirement.
