ADVANCE: Organizational Change for Gender Equity in STEM Academic Professions

*NSF 20-554 – Deadline: August 7, 2023 (Letter of Intent (LOI)
(required))*

- Issues grant awards to institutions of higher education and other organizations to address systemic gender-based inequities impacting STEM faculty with systemic change strategies.

<https://new.nsf.gov/funding/opportunities/advance-organizational-change-gender-equity-stem>

National Science Foundation

EDU

Directorate for STEM
Education

Alliances for Graduate Education and the Professoriate (AGEP)

*NSF 21-576 — Deadline: February 13, 2024 (preliminary proposal
required)*

- Goal: To increase the number of minority faculty in STEM.
- Advancing academic STEM career pathway models and systemic institutional change.
- Alliances promote equity and the professional advancement of doctoral candidates, postdoctoral researchers and faculty in STEM academic careers.

<https://new.nsf.gov/funding/opportunities/alliances-graduate-education-professoriate-agep>

National Science Foundation

EDU

Directorate for STEM
Education

Centers of Research Excellence in Science and Technology (CREST)

NSF 23-595 – Deadline: Multiple in December (see website)

- CREST Center awards
- Historically Black Colleges and Universities Research Infrastructure for Science and Engineering (HBCU-RISE)
- CREST Postdoctoral Research Fellowship (PRF)

Education

Louis Stokes Alliances for Minority Participation (LSAMP)

NSF 20-590 – Deadline: November 3, 2023

Transforming STEM education to support African American, Hispanic American, American Indian, Alaska Native, Native Hawaiian, Native Pacific Islander students

- Innovative, evidence-based recruitment, retention, and graduation strategies (alliance-based, centers and pathways)
- Enable successful transfer of students from 2-yr to 4-yr institutions (Bridge to the Baccalaureate)
- Increase access to high-quality research experiences
- Facilitate seamless transition of students into graduate programs

Education

Advancing Informal STEM Learning (AISL)

NSF 22-626 – Deadline: January 10, 2024

- Seeks to fund:
 - Research and practice, with continued focus on investigating a range of informal STEM learning experiences and environments that make lifelong learning a reality.
 - Proposals that center equity and belonging, and further the well-being of individuals and communities who have historically been and continue to be excluded, underserved, or underrepresented.
 - High-quality plans to generate knowledge through research, evaluation, and practice.

Education

Innovative Technology Experiences for Students and Teachers (ITEST)

NSF 22-585 – Deadline: August 11, 2023

- Goal: To advance educational innovations that motivate and prepare PreK-12 learners for computationally-intensive industries of the future.
 - Engage students in technology-rich learning to develop disciplinary and/or transdisciplinary STEM content knowledge, including skills in data literacy and evidence-based decision-making and reasoning;
 - Prioritize the full inclusion of groups who have been underrepresented and/or underserved in the STEM and information and communication technologies (ICT) workforce;
 - Motivate students to pursue appropriate education pathways to technology-rich careers; and
 - Leverage strategic and community partnerships to expand education pathways in communities through public and private partnerships

Directorate for STEM
Education

Improving Undergraduate STEM Education: Education and Human Resources (IUSE: EDU)

*NSF 23-510 – Deadlines: July 19, 2023 & January 17,
2024*

- Promoting discovery of new evidence-based interventions to improve undergraduate STEM teaching and learning.
- Transforming institutions and STEM communities through the adoption and implementation of best practices in undergraduate STEM teaching and learning.
- Supporting diversity and inclusion in STEM by advancing knowledge and adoption of effective STEM education for all.

<https://new.nsf.gov/funding/opportunities/improving-undergraduate-stem-education-directorate>

National Science Foundation

EDU

Directorate for STEM
Education

NSF Scholarships in STEM (S-STEM)

NSF 23-527 – Deadline: February 20 & March 28, 2024

- Addressing the need for a high-quality scientific workforce in STEM disciplines.
- Providing grants to institutions to support the increased success of low-income, academically talented students with demonstrated unmet financial need.

<https://new.nsf.gov/funding/opportunities/nsf-scholarships-science-technology-engineering>

National Science Foundation

EDU

Directorate for STEM
Education

Robert Noyce Teacher Scholarship Program (NOYCE) *NSF 23-586 – Deadline: August 29, 2023*

- Addressing the critical need for highly effective K-12 STEM teachers and teacher leaders by recruiting, preparing, and retaining talented STEM undergraduates and professionals for teaching careers.
- Researching effectiveness and retention of STEM teachers in high-need school district.
- Includes a research track.

CyberCorps®: Scholarship for Service (SFS)

NSF 23-574 – Deadline: July 17, 2023

Goal: Increase the number and diversity of qualified cybersecurity professionals prepared to serve the cybersecurity mission of the government

- Aligns with NSF Statutory Mission to secure the national defense
- Institutions of higher education provide scholarships to undergraduate and graduate students pursuing degrees related to cybersecurity
- After graduation, scholarship recipients serve the cybersecurity mission of the government for a period equal to the length of their scholarship
- Partnership with Office of Personnel Management and the Department of Homeland Security
- 12-16 awards/year; ~\$2.5-\$4MM; 5-year duration

Innovations in Graduate Education (IGE)

NSF 20-595 – Deadline: March 25, 2024

Goal: Encourage development and implementation of bold and potentially transformative approaches to STEM graduate education and training

- Supports piloting, testing, and validating innovative and potentially transformative approaches to STEM graduate education.
- Projects generate knowledge required for customization, implementation, and broader adoption.
- 6-10 awards/year; \$1MM maximum award; 5-year duration

<https://new.nsf.gov/funding/opportunities/innovations-graduate-education-program>

National Science Foundation

EDU

Directorate for STEM
Education

NSF Research Traineeship Program (NRT)

NSF 21-536 – Deadline: September 6, 2023

Goal: Prepare diverse cohorts of STEM graduate students for a range of STEM careers in high-priority interdisciplinary or convergent research areas

- Addresses workforce development, emphasizing broad participation
- Builds institutional capacity for convergent graduate education
- Strategic collaborations encouraged (private sector, non-governmental organizations, government, national laboratories, field stations, teaching and learning centers, informal science centers, and academic partners)
- 18-20 awards/year; 5-year duration; Track 1: \$3MM; Track 2: \$2MM
